

Interact with your Industry Professionals LIVE from your Computer, Tablet or Smart Phone.

The SMi Group is proud to announce the introduction of Live Web Streaming at all of its UK conferences.

LONDON, UK, September 10, 2013 /EINPresswire.com/ -- This unique and exclusive platform will allow you to not only watch the conference live and direct from anywhere, but it will also allow you to ask questions of each speaker live via the Conference Chairman, enabling you to fully participate in this ground breaking and pioneering forum.

According to Dale Butler, SMi Group's Managing Director, "Our UK events are attracting a significantly higher level of interest from outside of the UK and Europe. This new development will allow significantly more involvement in our events from these parts of the globe."

Viewers can watch the event live online. You will have exclusive front-row access to keynote sessions, panel discussions and presentations. Through fully interactive Live Web Streaming, you'll be able to watch the two-day event, participate in the Q&A along with everyone else live and view any conversations taking place on the event's hashtag, all on the same screen.

And even better, by subscribing to Live Web Streaming, you will also be able to watch the conference again On Demand, just in case you want to revisit your favourite presentations or if you couldn't watch them all live. Whether you watch via Live Web Streaming or On Demand you will still have the ability to send questions to speakers!
