

German made motorcycle trikes set to make a splash in the USA

Rewaco USA is thrilled to launch the exciting and unique RF-1 family of motorcycle trikes to the US market

LAKE ALFRED, FLORIDA, USA, September 9, 2013 /EINPresswire.com/ -- For 23 years Rewaco in Germany has produced some of the world's finest 3 wheeled cycles for the European market. Finally, Rewaco USA is importing these top of the line machines for the American rider, and the AIM Expo is the perfect place to begin the process of introducing them. The RF-1 is a trike built from the ground up in the traditional stance with 1 wheel up front and 2 in the rear. They are powered by a 1.6 Liter sport tuned inline 4 cylinder Ford motor with a manual transmission and reverse. They have independent rear suspension and a front end designed specifically for the trike application. Two of the models have the option of coming in a 3-seater version, something most other trikes cannot offer. Performance, comfort, quality, style and fun factor are all pumped up to the max with the RF-1. Three different models, multiple trims and paint schemes offer a variety of features and customization.

Rewaco USA invites the public and dealers to view the RF-1 models at the AIM Expo, and dealer inquiries are welcome.

For more information about Rewaco trikes, contact Rewaco USA by emailing info@rewacousa.com.
