

# Paffy's Pest Control in St. Paul MN Offers Tips on Warding Off Seasonal Pest Threat

ST. PAUL, MN, USA, September 10, 2013 /EINPresswire.com/ -- Paffy's Pest Control in St. Paul, Minnesota, recently announced onsite inspections to home and business owners for finding and filling spaces where pests entered to make their homes in the winter.

“

It is best not to wait until the dead of winter to search for, locate and try to eliminate pests that have already made your home or business their place of residence.”

*Duane Paffel*

Pest Control Technology magazine warns that it won't be long before overwintering insects and pests begin to search for ways to enter homes and buildings as shelter during the cold winter months. The pest management professionals at Paffy's Pest Control, a [pest control company in St. Paul](#), want home and business owners to know that their no-cost, hassle-free consultation allows the company to determine the best way to identify and eliminate entry points and burrow spaces that pests use to get into buildings as the months grow cool.

The company makes it part of their strategic planning for the fall, in preparation for the cold winter months, to provide exterior treatments that target specific pests from burrowing in due to changes in the weather.

“It is best not to wait until the dead of winter to search for, locate and try to eliminate pests that have already made your home or business their place of residence,” says Paffy's Pest Control owner Duane Paffel. He also noted that the company has provided [St. Paul pest removal services](#) to both residential and commercial customers for more than 20 years.

Paffy's Pest Control is licensed, bonded and insured, and certified by the Better Business Bureau. The expert exterminators at Paffy's Pest Control offer a number of different services that include the removal of rodents, bedbugs, cockroaches, and bee and wasps. The company's insect control services also guarantees to permanently get rid of ants, black velvet beetles, Asian beetles, spiders, and many more. Their pest removal services are offered during business hours on Monday through Friday, as well as on Saturdays for the customer's convenience.

The company stands by its motto: Tough on Pests, Easy on the Rest—whenever its pest control treatments are needed. Their efficient technicians plan the treatments and techniques that ensure customers can resume a pest-free life as quickly as possible. Company technicians are

knowledgeable about all aspects of the pest control industry and make it a point to ensure that any pest problem is solved with patience and a strategic plan.

Paffy's Pest Control offers full-service protection along with a guarantee that if the customer is dissatisfied with their pest control services, they will conduct another inspection at no extra charge! Call Paffy's Pest Control today for a no-hassle consultation.
