

DataNumen PDF Repair 2.1: Recover Damaged PDF Files and Prevent Data Loss

DataNumen Inc., an outstanding developer of data recovery software, today announces DataNumen PDF Repair 2.1.

HONG KONG, HONG KONG, September 11, 2013 /EINPresswire.com/ -- DataNumen Inc., an outstanding developer of data recovery software, today announces DataNumen PDF Repair 2.1. The new version of the powerful PDF recovery tool delivers significant enhancements, including improved repair engine and support for Microsoft Windows 7 and 8.

Portable Document Format (PDF) is the global standard for electronic documents, essential when the documents have to look exactly the same regardless of computer platforms and fonts installed. PDF is often employed for online forms, articles and various documents. Widely used, PDF files can be corrupted or damaged, which can result in important data loss, affecting business or daily life. Obviously, users usually hope that this simply won't happen. However, hope alone cannot wipe away the data disaster; but DataNumen PDF Repair can.

DataNumen PDF Repair is designed to enable users to scan and repair corrupted or damaged Acrobat PDF documents, recovering valuable data. Powerful repair engine employs advanced and reliable heuristic file recovery algorithm, allowing to find and recover the maximum number of objects in a PDF document. With DataNumen PDF Repair 2.1 a user can find and select the PDF files to be repaired on the local computer. The software also allows repairing PDF files stored on corrupted media, including floppy disks and flash drives.

DataNumen PDF Repair 2.1 covers nearly all features that are not available or only partially available in the competing products, including support for command line and drag-and-drop feature. The full-fledged functionality is delivered in a user-friendly interface. Recovery process can be started with a few mouse clicks and is performed automatically. The program seamlessly integrates into Windows Explorer, and can be easily accessed from context menu.

Pricing and Availability

DataNumen PDF Repair 2.1 runs under Windows 95/98/Me/NT/2000/XP/Vista/7/8/Server 2003/2008/2012, and recovers all versions of Acrobat PDF files. A single-user license costs 149.95 USD. Volume discounts are available. Further information on the product, as well as its free demo version, is available from <http://www.datanumen.com/pdf-repair/>
