

Ahern & Associates Announces Two Additional Acquisition Consulting Assignments for Third Quarter

America's top trucking and logistics consultants announce 2 recent additional client assignments.

PHOENIX, AZ, UNITED STATES, September 12, 2013 /EINPresswire.com/ -- The leading transportation consulting company in transportation mergers and firm acquisition has set the pace for yet another record year. In the past 3 weeks, Ahern & Associates have assisted their clients in reviews that have resulted in 3 successful acquisitions, as well as 5 new consulting projects. With the 2 new additional acquisition consultations on their books, the stage is set for Ahern to be busier than ever in their role as the industry's leading transportation consultants, with the news that additional letters of intent continue to be issued.

Ahern's Transportation Consulting Division continues to receive accolades from the trucking industry for their performance and continued success in increasing operating earnings, decreasing operating expenses, and improving bottom line profitability.

Recently, Ahern's services were engaged by a 3PL firm that is well-known in the industry. The company is extremely profitable, has longevity within the industry, and has demonstrated a respect and appreciation of Ahern's expertise. The firm engaged Ahern to increase their operating footprint, restructure their operating model, and provide suggestions on additional services that should be offered.

Ahern's second assignment is with a start-up company looking to "hit the ground running." The client has an industry niche service, which carries the potential to completely revolutionize the way freight rates are captured. This firm immediately engaged Ahern's services for their knowledge, expertise and ability to "drive" shareholder value.
