

PrimeVapor E-Cigarettes Partners with Bongo International for Worldwide Service

Leading e-cigarette manufacturer sells direct to the consumers all over the world

PLEASANT PRAIRIE, WISCONSIN, USA, September 12, 2013 /EINPresswire.com/ -- [PrimeVapor](#) is pleased to announce a partnership with Bongo International that will permit the shipment of orders outside the United States.

“We have always known that PrimeVapor has a worldwide audience for its products and direct to consumer pricing,” said William Fischer, president of PrimeVapor. “Up to now, we felt we could not offer the same high level of customer service that our domestic customers enjoy outside the United States. Now we have a logistics partner that can satisfy shipments all over the world quickly and efficiently.”

“

Now we have a logistics partner that can satisfy shipments all over the world”

William Fischer

PrimeVapor electronic cigarettes are the fastest growing alternative to smoking that provides a true smoking experience without the tars and other chemical byproducts

found in tobacco smoke. The PrimeVapor smokeless cigarette produces a vapor that looks, feels and tastes like cigarette smoke but contains only three simple ingredients; a vapor solution, flavoring and just the right amount of nicotine. Smokers can switch to these smokeless cigarettes without any discomfort.

PrimeVapor has several new developments that make their vapor cigarette solution more attractive than ever to those who wish to make the switch.

The most important difference between PrimeVapor and other e-cigarette providers are their exclusive [flavors](#). These specially formulated vapor compounds are manufactured in the United States under strict laboratory conditions using all natural vegetable glycerin, intense and exciting food grade flavor extracts and a choice of nicotine strengths. Engineered to produce the most vapor and best taste, the PrimeVapor flavors come in a wide variety to suite anyone’s taste.

PrimeVapor has developed their exclusive [SmartCharge](#) LED display that lets users know the

state of their e-cigarette battery's charge at a single glance. First featured in their high performance Saturn 808 e-cigarette system, it is now available in their stealth Chameleon battery. Smaller and lighter than the Saturn 808, this battery will fit in pocket or purse easily.

About Primevapor.com:

PrimeVapor is a manufacturer and distributor of quality electronic cigarette supplies and equipment. They have developed an e-cigarette system that offers a smoker who wants an alternative to traditional tobacco the ultimate smoking experience without the smoke, smell and tar. You can buy e-cigarettes right on the site.

More Vapor...Better Flavor...PrimeVapor
