In Sterling, CareCredit™ makes it easier for our dentists to focus on providing patients with the best possible dental care, instead of focusing on costs. At this office, CareCredit™ is even accepted for a variety of types of elective and cosmetic dentistry. CareCredit™ pays for teeth whitening, dental veneers, dental implants, and other types of cosmetic dentistry services.

Unlike a traditional Visa or MasterCard, CareCredit™ offers special financing options to make it easier for patients to afford dental procedures. Short-term financing options range from 6 to 24 months, with no interest charged on dental procedures over \$200 or more with minimum monthly payments made on time. At the end of the promotional period, interest will be charged on the remaining amount if not paid in full.

Patients that want to spread out payments over time can choose longer programs with a reduced, fixed interest rate. Fixed monthly payment amounts are spread out over 24, 36, 48 or 60-month periods, based on the amount financed.

CareCredit™ can be used to pay for all out-of-pocket costs associated with dental treatment, from elective cosmetic dentistry procedures such as teeth whitening to emergency root canal therapy. CareCredit™ can even be used to pay deductibles and co-payments.
