

Goal Group Appoints Two New Managers to its Rapidly Expanding Global Team

LONDON, UNITED KINGDOM, September 16, 2013 /EINPresswire.com/ -- Goal Group Limited, a claims outsourcing provider and tax reclamation specialist, has appointed David Gilbert as Global Business Development Manager and Tania Dupoy as Sales and Relationship Manager. Both are to be based at Goal Group's London office.

Mr Gilbert has over 20 years' experience, for the most part within the financial information industry. His most recent position was as Regional Sales Director at Interactive Data, a leading global provider of financial market data, analytics, and related solutions to financial institutions.

Various positions have led Mr Gilbert to gain experience in generating sales and revenue, management, and direct involvement in major client relationships. He will be closely involved in the implementation of Goal Group's new feature to enhance its global securities class actions outsourcing service. The Traffic Light Concept is designed to streamline the new decision process for non-standard securities class actions cases, such as opt-outs and direct actions, thereby facilitating appropriate action in the best interests of the underlying stakeholders.

Ms Dupoy's career to date has mostly been spent as a Senior Consultant for both Merrill Lynch and Fidelity, specialising in the complex area of global corporate actions. Her career began working for Standard and Poors (S&P) as a Project Manager for the Structured Finance Centre of Excellence, focusing on Mortgage Backed Securities, and she has also worked for the U.K.'s largest daily travel deal site as a National Sales and Relationship Manager in a highly pressurised environment.

Stephen Everard, CEO, Goal Group, comments: "The team at Goal Group is very enthused by the appointment of David and Tania. Tania is a young and dynamic individual with significant experience in contacting custodian banks and information vendors to research, analyse, and verify corporate actions. I am confident she will excel in her Sales and Relationship Manager role. David's extensive experience has equipped him with the key qualities to be a successful Global Business Development Manager and he will be reporting to Noah R. Wortman, our Director of Global Business Development, based in our Philadelphia office. Their knowledge, capability and drive will prove invaluable to Goal as the company continues its global expansion."

About GOAL Group Limited (GOAL) www.goalgroup.com

Established in 1989, GOAL is the leading class actions and tax reclamation services specialist. Goal has a truly blue-chip client base including many of the world's largest global custodians, asset managers, private banks, pension funds, hedge funds, high net-worth individuals, investment banks, prime brokers and fund managers spread widely across Europe, the United States and the Far East.

GOAL's class actions service is provided via the wholly-owned subsidiary Goal Global Recoveries Limited ("GGRL") and supports individuals and corporate entities who have suffered financial loss from owning shares in a company where there has been mis-management and/or unlawful behaviour. GOAL has calculated that between 2000 and 2007, nearly \$12 billion had been 'left on the table' by shareholders who had failed to seek redress for their losses, and is currently working on an estimate of unreclaimed losses for 2008-11.

In the tax reclamation field, GOAL's flagship product GTRS (Global Tax Reclamation System) - available as installed software or as an outsourced service - helps custodians reclaim tax on income from cross-border securities that has been overwithheld by foreign governments based on international Double Taxation treaties. This is delivered to global financial institutions, including 5 of the world's top 10 custodian banks.
