

Cascades Auto Body in Sterling VA Announces Free Estimates by Appointment

STERLING, VA, USA, September 16, 2013 /EINPresswire.com/ -- Cascades Auto Body in Sterling, Virginia, recently announced its intention to provide customers with free estimates by appointment. Free estimates will be given on all services, including structural and collision repairs.

Cascades Auto Body, an [auto body repair shop in Sterling](#), Virginia, recently announced its intention to provide customers with free estimates by appointment. Estimates will be given on all services, including structural and collision repairs, paints and dents and mechanical system repairs.

In business since 1994, this [Sterling auto body repair shop](#) also uses the latest technology, such as laser wheel alignment equipment that guarantees wheel alignment precision to guide the vehicle to its straightest driving performance. Cascades Auto Body spokesperson, Al Fortin, says, "After an accident, a car might not respond to directions as well as it used to. There may be a problem with the alignment of the wheels or suspension system. After we inspect and diagnose the problem, we use precision laser wheel alignment to get your car driving perfectly straight again."

The auto body shop maintains that laser systems are the most precise guidelines in restoring the vehicle to the right specifications as advocated by the vehicle manufacturer. They guarantee customers that their cars will perform exactly the way they were meant to when they leave Cascades Auto Body shop.

With its emphasis on state-of-the-art technology and equipment, the experienced technicians at Cascades Auto Body also prefer, whenever possible, to use the shop's three-dimensional frame straightening technology, which leaves no room for mistakes or calculations that don't add up correctly. The shop emphasizes the importance that frame straightening must be done accurately or the entire vehicle will be affected negatively.

In addition, Cascades Auto Body also performs airbag replacements on almost any make or model. They do not hold to the popular belief that once an airbag is deployed, the car is totaled. The shop's mechanics are determined to replace airbags whenever possible and keep the customer's car in safe, reliable operating shape. They stand behind their premise that replacing a vehicle's airbag is always more affordable than replacing the entire vehicle.

About Cascades Auto Body

Cascades Auto Body is proud to be a family owned business, serving Sterling and the surrounding communities of Herndon, Ashburn, Leesburg, Great Falls, Reston, Purcellville, Hamilton, Winchester, and Chantilly since 1994.
