EINPresswire.com/ -- Car shoppers looking for a Jeep in Brisbane with an incredible fuel economy can choose the new 2014 Grand Cherokee in Brisbane from [Northstar Chrysler Jeep Dodge](#) in Redcliffe.

The new Grand Cherokee in Brisbane gets 14 litres/100km. The diesel model boasts a fuel efficiency of 7.5 litres/100km, making it an attractive option for drivers looking to boost their fuel economy even more.

The vehicle has an official average of 14-litres/100 km, but diesel models use as little as 7.5 litres/100km.

"If you're looking for a mid sized SUV with a fuel economy that can keep you on the road -- and out of the petrol stations -- the new Grand Cherokee is an excellent choice. However, this fuel economy comes alongside all the power that you need. Whether you choose the V6, V8 or turbo

diesel V6 engine, you'll be able to power through both on-road and off-road terrains," said Bob Aldons of Northstar Chrysler Jeep Dodge in Redcliffe (<http://www.redcliffe.cjddealer.com.au/>).

In addition to power and fuel economy, Jeep drivers can find a number of safety features, a great looking exterior and luxury touches. Inside the Grand Cherokee are heated seats, chrome accents, wood trim, ample storage, premium sound and an easy to use keyless entry, which ensures drivers can enjoy time spent behind the wheel.

Its exterior is markedly Jeep. The distinctive seven-slot grill, alongside the trapezoidal wheel arch and round headlights, lets everyone on the road know that they're sharing the road with a Jeep. The safety features, including the Electronic Stability Control, a four-wheel anti-lock break system and multistage driver and front passenger airbags, all work together to ensure the drivers and passengers are as safe as possible while on the road.

"If you're interested in seeing what the most awarded SUV has in store for its 2014 models, we'd love to [schedule a test drive](#). Give us a call or stop by our showroom in person and we'd be delighted to show just how fun the 2014 Jeep Grand Cherokee can be to drive," said Aldons.
