

2014 Jeep Grand Cherokee SRT8 Combines Performance And Fuel Efficiency For Brisbane Market

Find the fuel-efficient, performance-driven Grand Cherokee SRT8 at Brisbane dealer, Northstar Chrysler Jeep Dodge.

REDCLIFFE, QLD, AUSTRALIA,
September 20, 2013 /

EINPresswire.com/ -- It's not often that drivers can find a SUV that offers both performance features and fuel-efficiency, but the new Jeep Grand Cherokee SRT8 manages to do both. At [Northstar Chrysler Jeep Dodge](#), auto shoppers can experience this unexpected combination for themselves when they book a test drive with the Jeep dealer in Redcliffe.

The Jeep dealer in Redcliffe is booking test drives now

“

There is a huge interest in the Grand Cherokee SRT8. We are booking test drives daily as everyone wants to test out this auto for themselves.”

Bob Aldons

Engineered to handle as well on the street as on the track, the Grand Cherokee SRT8 features a 6.4L HEMI® V8 engine with Fuel Saver Technology. Included with that technology is an all-new active valve exhaust system, which allows the vehicle to achieve a wider rpm range and a 13-percent improvement in highway fuel efficiency over the previous SRT8 generation. Meanwhile, the 6.4L HEMI® V8 engine provides 470 horsepower and 465 pound-feet of torque which is 45 more Hp and 50 pound-feet more torque than previous models.

"The Grand Cherokee SRT8 is the most powerful Grand Cherokee ever without a doubt, but it has more than power on its side. There is a level of control available to drivers that we've never seen before. For example, the new transmission has 99 different shift maps available, which is unprecedented in mass-produced autos. These shift patterns deliver controlled and customised responses to road conditions, which makes driving safer and more pleasurable. The Grand Cherokee SRT8 is the auto for people who truly enjoy the process of driving," said [Bob Aldons](#) of Northstar Chrysler Jeep Dodge in Redcliffe (<http://www.redcliffe.cjddealer.com.au/>).

If the number of shift patterns isn't enough to impress, drivers will marvel at the paddle shifters, which are located on the steering wheel, not the centre console. New settings, like "S" for Sport can be selected for more aggressive performance, while Snow and Tow settings are more suitable for capability and handling. An "Eco" mode indicator keeps the driver informed when the Fuel Saver Technology kicks in. Finally, the Grand Cherokee SRT8 (<http://www.redcliffe.cjddealer.com.au/new-vehicles/new-jeep-vehicles/2014-grand-cherokee-srt>) features Brembo brakes which are among the most highly respected braking systems in the world of high-performance autos.

"There is a huge interest in the Grand Cherokee SRT8. We are booking test drives daily as everyone wants to test out this auto for themselves. For anyone who dreams of race car driving, this is as close as you can get without being on a track," said Aldons.

Drivers interested in seeing this high-performance SUV for themselves can find the new Grand Cherokee SRT8 at Brisbane dealer, Northstar Chrysler Jeep Dodge located at 320 Anzac Avenue, Redcliffe or book a test-drive online at <http://www.redcliffe.cjddealer.com.au/>.
