

# FabTrol Systems Partners with Bell Steel for SteelDay 2013

*Bell Steel Inc., a FabTrol Systems' customer, to host a SteelDay 2013 event, including a FabTrol event*

EUGENE, ORE, USA, September 30, 2013 /EINPresswire.com/ -- [FabTrol Systems](#), a global leader in steel fabrication management software, and [Bell Steel](#), a longtime user of FabTrol Systems' software, team up on October 4 at the Bell Steel facility in Gilbert, Arizona to contribute to [SteelDay 2013](#), an annual educational and networking event sponsored by the American Institute of Steel Construction (AISC).

Each year on SteelDay, steel fabricators, steel mills and service centers, galvanizers, steel forming companies and others in the steel fabrication supply chain across the country host educational events, facility tours, jobsite tours, seminars and hands-on activities designed to promote an understanding of the use of steel in the built environment.

This year, Bell Steel, a commercial iron works shop specializing in the fabrication and erection of structural steel and miscellaneous metals' projects, will host fun and educational SteelDay activities, including a preview by FabTrol Systems' account manager, Sue Landis, of FabTrol Mobile, an easy-to-use mobile app that provides convenient access to real-time shipping and production status information in FabTrol Pro.

Additional activities include a tour of Bell Steel's state-of-the-art shop, equipment demonstrations, a gourmet barbeque lunch, door prizes and a noon AISC presentation. Vendor booths will also be set up, including a FabTrol booth. Attendees are encouraged to visit FabTrol's booth where Ms. Landis will have information about FabTrol software and will be available to discuss how FabTrol solutions help steel fabricators achieve the kinds of benefits Bell Steel has experienced.

To learn more about Bell Steel, visit <http://www.bell-steel.com>. For information about FabTrol Systems' software solutions, visit <http://www.fabtrol.com> or email [info@fabtrol.com](mailto:info@fabtrol.com).

## About FabTrol Systems

FabTrol Systems, a global leader in steel fabrication management solutions since 1984, is a proud member of the Dowco Group. Founded by steel fabricators, and still built around a core team of former steel fabricators, the company continues its commitment to the industry by

continuously researching fabricators' needs, developing new software solutions, actively seeking feedback from its customer companies—over 1,000 globally—and by working with other industry leaders to address existing and future needs.
