

IT Governance Publishing partners with Hitec Laboratories

ELY, UK, October 1, 2013 /EINPresswire.com/ -- [Hitec Laboratories](#) (Hitec), a leading provider of Governance, Risk and Compliance (GRC) and Enterprise Content Management (ECM) software solutions, are working with [IT Governance Publishing](#) (ITGP) to provide approved Policy and Procedure Content Toolkits and manage them effectively to support compliance and Best Practice.

[ITGP toolkits](#) give organisations tried-and-tested documentation that makes it simple to implement effective Policies and Procedures and, where relevant, facilitate certification to national and international Standards such as ISO27001 and ISO22301. The unique modular nature of the ITGP toolkits means that it is straightforward to add new Standards and frameworks to existing ITGP-based systems.

PolicyHub is a fully automated Award winning Policy Lifecycle Management solution. It is designed to manage the entire Policy Lifecycle, from creation and review, to communication and affirmation, to audit and reporting.

Jeremy Crame, CEO of Hitec comments: "We are really pleased to be working with IT Governance Ltd. Hitec understand the pressures that organisations are facing with increasing legislative and regulatory requirements. PolicyHub supports organisations to proactively manage the processes around critical policies to demonstrate good governance, achieve compliance and Best Practice, and mitigate liability. PolicyHub works effectively with ITGP toolkits to provide a really powerful compilation."

Whatever the application, using ITGP toolkits with PolicyHub will provide organisations with approved Policy and Procedure content and effective management to achieve regulatory compliance and mitigate risk. PolicyHub ensures the right Policies and Procedures get to the right people, that they become accountable by signing up to them and that the entire process is recorded and auditable.

Hannah Perrett, Head of Publishing at ITGP explains: "This is an exciting collaboration, and a chance for organisations that care about good governance to get the complete Policy package: the very best content in the shape of tried-and-tested policies, advice and procedures, and an Award-winning Policy Lifecycle Management solution that takes the strain out of maintaining, updating and auditing them."
