

# Material Handling, Hospitality, Onsite services

---

*Ever wished there was one single place you could go to and pick up all the material handling equipment you needed?*

CARINGBAH, NSW, AUSTRALIA, October 2, 2013 /EINPresswire.com/ -- Ever wished there was one single place you could go to and pick up all the material handling equipment you needed? Or if you are in the construction business and need to set up a restaurant on the ground floor and offices on the floors above then the one place you should be heading to is <http://www.3dequipment.com.au/> 3D Equipment is an Australian Company which supplies Hospitality equipment products and has an agreement with a specialized manufacturing and fabrication company on its premises specializing in manufacturing or fabricating of latest state-of-the-art tools, equipment, and just about any stainless steel or Storage Equipment supplies Australia. These can be used in the medical services industry or the hospitality industry.

In fact, the state-of-the-art manufacturing and fabrication plant makes tools such as benches, material lifts, barrier door polls, and fork stackers, racking benches, carton sealers, cleaning machine and sign boards.

For the hospitality industry they specialize in providing microwave ovens, commercial vacuum packaging, chimneys, gas stoves, holding cupboards, food warmers, holding cabinets, dishwashers, pot and utensil washers, rack conveyor dishwasher, Countertop Cooking Equipments, rubberized safety mats, refrigerated display counters, heated display counters, food and drink heaters, automatic dispensers, litter bins, etc.

They also make line marking and stencil equipment used to draw neat lines on roads, runways, car parks etc. It's really a one-stop shopping point for all material handling and Commercial Kitchen Equipment you might need.

3D Equipment also undertakes custom repair and custom fabrication works. If you need a specific tool or equipment be it for maintenance or for use in the Commercial Drawer Fridge of the hospitality sector, all you need to do is go talk to them. You can either carry the engineering drawing and specs or you can carry just the idea. The sales team and the engineers at 3D Equipment will give you a patient ear and if they think the idea is feasible (they have a record of so far not turning down anyone), they will draw up the design and calculate the cost. Once the client approves it, it is forwarded to the production unit for manufacture or fabrication.

3D Equipment also provides onsite services including certified building inspections, large installation disassembly, transport and reassembly, maintenance services such as window cleaning, janitorial, Materials handling equipment and garden maintenance.

Many a time businesses and homeowners require something that needs to be done for which there isn't a specialist or professional available. For example, clearing the leaves from the drain on the roof or fixing a bird house that needs some repairs and so on. There are hundreds of small jobs for which it would be too expensive to call a professional. Don't you wish there was a handyman for this kind of things? 3D Equipments fixed that.

3D Equipments now provides a unique Handyman Repair Services. A handyman will come and repair or do small jobs such as repairing a stair or fixing your skewed dish antenna or locating and unclogging a drain or gutter and any other small jobs around the building or home. If the handyman cannot handle it himself or feels that the line marking services of a specialist is required, he will inform you of it and offer to call the specialists and have the work completed.
