

Andrews Roofing Adds Equipter Machinery to Lineup

Company is the only one in the region to use innovative product.

PORTSMOUTH, VIRGINIA, USA, October 8, 2013 /EINPresswire.com/ -- Hampton Roads-based Andrews Roofing has added [the Equipter](#) to its core of heavy-duty machinery. This innovative device is a great addition to any roofing job, as it helps crews with roof and gutter cleanup, as well as the removal of debris like old shingles and tarpaper from existing roofs. The Equipter also allows crews to complete the job up to 20 percent faster, as it requires less labor to remove dirt and debris. In addition, Andrews Roofing is the only company of its kind in Hampton Roads to use the Equipter.

"The average home has anywhere between 7,000-10,000 pounds of debris on the house," said Robert Andrews, President of Andrews Roofing. "With the improved efficiency provided by the Equipter, we not only complete projects faster, but we also get to finish other tasks simultaneously. This equipment allows us to get the job done quickly and quietly. In the end, our customers end up with a 'New roof, No mess.'"

The Equipter's hydraulic lift places the machine closer to the roofline of the home, making trash and debris disposal easier, as roofers are closer to the equipment. As a result, 99 percent of the trash stays off the ground. In addition, the machine's design ensures that the home, yard or garden sustains minimal, if any, damage as crews work. Andrews Roofing offers a video explaining how the Equipter works - along with a customer testimonial - on the [Andrews Roofing website](#).

About the Company:

Family owned and operated since 1997, Andrews Roofing (www.andrewsroofing.com) services the greater Norfolk/Virginia Beach region (also known as Hampton Roads), as well as the Richmond, Va. area and the Outer Banks of North Carolina. The company provides energy-efficient roof repair and replacement services for homes, businesses, churches and schools, under two categories: steep and low (flat) slopes. Andrews Roofing installs more than 350 new or replacement roofs a year, and repairs more than 500 across Hampton Roads.
