

# Presto Engineering moves its Headquarters

---

*New Silicon Valley Hub allows advanced Radio-Frequency (RF) wafer production testing in clean room*

SAN JOSE, CA, UNITED STATES, October 8, 2013 /EINPresswire.com/ -- San Jose, California, October 8, 2013 — Presto Engineering, Inc., a world leader in back-end turn-key services, announced today it has moved its headquarters to a new location:

109 Bonaventura Drive  
San Jose, CA 95134

The facility will host the company's Silicon Valley Hub providing local and overseas customers with advanced test, reliability, qualification and production solutions. The 10,000 sq-ft facility includes a clean room for best-in-class RF wafer-level testing.

"As we continue on our aggressive growth path, this new facility in San Jose will allow us to better serve our customers, here in Silicon Valley, throughout North America and beyond," said Michel Villemain, founder and CEO. "It demonstrates our commitment to being a leading provider of comprehensive semiconductor test solutions and the world leader in the provisioning of advanced RF testing technology, engineering, and back-end infrastructure."

The move was completed at the end of September. Both the new headquarter office and operating facility are fully operational.

## About Presto Engineering, Inc.

Presto Engineering provides comprehensive semiconductor product engineering and production solutions to IDM, fabless and electronics companies, contributing to improving ramp time, margins and quality of new products.

We are recognized experts in the development of test solutions, for component characterization and production. This expertise, combined with state of the art ESD, reliability and failure analysis capabilities, produces a competitive advantage for our customers in optimizing end-product performance, including accelerating time to market. We offer turn-key solutions from customer tape-out to delivery of finished goods to end-customer(s), including assembly, test, qualification, industrialization, and production sustaining activities.

Presto Engineering is headquartered in San Jose, California and has operations in Europe and Israel. Additional information is available on the company's website at [www.presto-eng.com](http://www.presto-eng.com).
