

Dr. Albert Mina Offers Invisalign in St. Louis

Free Invisalign Consultations Available from St. Louis Cosmetic Dentist

ST LOUIS, MO, USA, October 8, 2013 /EINPresswire.com/ -- Dr. Albert Mina offers free consultations for [Invisalign in St. Louis](#). For those who want [invisible braces in St. Louis](#), there is no better time to try out Invisalign – America's favorite brand of invisible braces.

A member of the American Dental Association, the Missouri Dental Association, and the Greater St. Louis Dental Society, the longtime St. Louis dentist has seen it all when it comes to braces. With 33 years of experience, Dr. Mina remembers a time when metal braces were the de rigueur dental appliance for St. Louis residents who faced the dilemma of how to fix their crooked teeth.

Now, there is not a need for metal braces in St. Louis – not for patients of Dr. Mina, an Invisalign certified dentist. Invisalign, the clear alternative to cumbersome metal braces, is suitable for children, adults, and teens who want straighter teeth without the distractions of traditional dental appliances.

The Invisalign process is as simple as the results are attractive. When the process starts, the dentist simply plots the course the teeth will take as they are gradually rearranged. And this is a gradual process.

Every two weeks, a new set of aligners are used to gradually guide the teeth toward their desired position. And the best part of Invisalign, according to many of Dr. Mina's patients, is that no one knows they are on –except the patient and the dentist.

Dr. Albert Mina is a board-certified dentist offering general dentistry services including Invisalign in St. Louis. Mina handles teeth cleaning, X-rays and other related services. 31 years of experience.
