EINPRESSWIRE

Intetics Co. Named to the Software 500 2013 list for the Third Consecutive Year

Intetics among World's Largest Software Companies

CHICAGO, ILLINOIS, USA, October 10, 2013 /EINPresswire.com/ -- Intetics is proud to announce its fourth inclusion in Software Magazine's Software 500, an annual ranking of the world's largest software and services providers. The annual list, currently in its 31st edition, evaluates companies based on their revenue growth. Intetics was ranked #440 on the list, alongside companies such Microsoft, Oracle, HP, and Adobe Systems.

The Software 500 ranking is based on an annual evaluation of the world's largest companies and their revenue for 2012. This includes revenue from software licenses, maintenance and support, training, and software-related services, and consulting. Intetics was ranked #440, with annual growth of 34.04%. The growth rate was up by almost 10% from last year, which was 26.1%. Intetics was among the 97 companies, or 19.4% of private companies listed in the Software 500. Founder and President of Intetics, Boris Kontsevoi, said, "We are honored to be listed as one of the largest software outsourcing companies. We are proud of our achievements, but as always, we are looking ahead to see how we can improve our services and customer satisfaction in the future."

"The Software 500 helps CIOs, senior IT managers, and IT staff research and create the short list of business partners," the Editor of Software Magazine, John P. Desmond says. "It is a quick reference of vendor viability. And the online version posted at www.softwaremag.com, is searchable by category, making it what we call the online catalog to enterprise software." According to the financial information collected, Desmond writes that the industry experienced an overall growth of 4.5%, reaching estimated total revenue of $672.9 billion. For the 2012 fiscal year, the employment growth was calculated at 9.5%. Companies were also seen visibly investing in the future, with 12.7% revenue going to Research and Development. Intetics is excited to be part of this growing industry, and is looking forward to taking on the new challenges of the upcoming year – and turn them into growth.
