SHANGHAI, SHANGHAI, CHINA, October 11, 2013 /EINPresswire.com/ -- [Toivon](#) Studio announces that Kingdom of Pirates version 1.2 has recently become available for [download](#) at the iTunes App Store. Only within 2 months from the original release, Kingdom of Pirates, the latest MMORPG by Toivon Studio, has been downloaded several hundred thousand times. For such a short period, the developer has already released two major updates of this mobile game.

In Kingdom of Pirates, the most notorious pirates get united and set off on an unpredictable and unprecedented adventure. The new version of the game features a brand new virtual currency, which introduces a fishing system to the game. Pirates can choose among 5 different fishing rods, and try their luck for a good catch. There are dozens of fish species hiding in the depths of the sea. The best part is that fish can be exchanged for in-game items at the Pawnshop. So players can have endless fun and proceed in the game rapidly, without having to spend a dime!

With the new fishing feature, pirates can fish out not only different types of fish, but also guild fragments that unlock guild mode levels, where challenges are completed with the help of guildies. Victory will bring about gifts that will be rewarded to all members of the whole guild! The luckiest pirates might also recover some treasure chests which have been long lost at sea. This is a reminder of the core story of the game – the search of the lost treasures of the legendary pirate Captain Drake. Pirates have united in this adventure full of exploring, plundering and pillaging.

The developer Toivon Studio also announces that a follow-up version 1.21 will be released almost immediately after Kingdom of Pirates 1.2 hit the AppStore. Version 1.21 will provide a smoother adventure, due to effective optimizations, especially on the newly added fishing feature. The display of enemy guilds on Open Waters has been improved. In addition, the upcoming version will also make Chatroom accessible through Fishing interface.

Kingdom of Pirates for iOS offers an amazing gaming experience, suitable for players from all walks of life. It is completely [free](#) for download from the AppStore! Are you ready for battle?
