

# TransNexus Releases NexOSS 6 with Enhanced Fraud Detection Features and BroadSoft Compatibility

ATLANTA, GA, USA, October 14, 2013 /EINPresswire.com/ -- TransNexus announces latest version of VoIP Routing, Operations, and Billing Support System, [NexOSS](#), with updated [fraud detection](#) and compatibility with BroadWorks services.

TransNexus announced today the latest release of its industry leading VoIP Routing, Operations, and Billing Support System, NexOSS 6.0. NexOSS provides VoIP operators with an easy to use web interface for provisioning routes, rates, number translation rules and monitoring traffic analysis and billing reports. With the new release, NexOSS is optimized to work with BroadSoft's® BroadWorks® network elements and services. TransNexus has been a member of the BroadSoft Xtended program since 2012.

NexOSS 6.0 offers enhanced fraud detection and credit controls for BroadWorks customers. The software recognizes fraud and enforces credit controls by BroadWorks Service Provider ID and Group ID. In addition, the software supports the BroadWorks Provisioning Open Command Interface (OCI-P) to automatically change routing policies in the BroadWorks when a fraud or credit control trigger is activated.

"A growing number of our customers are leveraging BroadSoft's wide range of Unified Communications services in their networks to meet the demands of their enterprise customers," said Jim Dalton, president of TransNexus. "NexOSS now works seamlessly with our customer's complete VoIP networks, taking full advantage of BroadWorks' call routing capabilities. Our software is leading the way in next generation VoIP network management."

According to Michael Brousseau, VP of VoIP Engineering at A.C.N., the world's largest direct seller of telecommunications services, the new release of NexOSS has enabled his organization to implement centralized [Least Cost Routing](#) (LCR), fraud detection, and credit controls on a multi-national scale. "We worked closely with TransNexus to develop these new features," said Brousseau. "The ability to centralize our routing and integrate with our existing network has meant significant cost and operational savings."

TransNexus will demonstrate NexOSS 6.0 at BroadSoft Connections 2013 in booth 28 at the

Hilton San Diego Bayfront in San Diego, CA, October 16-19. Announcements and other news originating from BroadSoft Connections 2013 will appear on Twitter (@BroadSoftNews and #BSFTConnections).

TransNexus offers a free 90 day evaluation trial of NexOSS, complete with technical support and remote training for all qualified customers.

#### ABOUT TRANSNEXUS

TransNexus is a software development company specializing in applications for managing wholesale VoIP networks. Important carrier features offered by TransNexus are dynamic least cost and quality of service routing, number portability, fraud detection, profitability analysis and wholesale billing.
