# IT Governance to host a second ISO 27001:2013 transition webinar due to unprecedented interest

ELY, UK, October 16, 2013 /EINPresswire.com/ -- IT Governance Ltd, the global leader in information security and ISO 27001 compliance expertise, is going to host a repeat of their very successful ISO 27001:2013 Transition Webinar. This free webinar will take place on 22 October at 16:00 (BST). Attendees can register here: www.itgovernance.co.uk/media/events-and-presentations/iso27001-2013-transition-masterclass-webinar-with.aspx.

The webinar is led by Steve Watkins who is Director – Training and Consultancy at IT Governance, Chair of the UK ISO 27001 User Group and UKAS technical assessor for ISO 27001. Steve commented on the success of the first transition webinar:

"The interest in ISO 27001:2013 is enormous. This is clearly demonstrated by the unprecedented number of attendees of our first transition webinar on 11 October. The attendance was truly global including people from Europe, USA, Middle East, Africa, Asia, South America and Australia.

The good news is that those who missed the first broadcast will have the opportunity to tune into our second webinar and ask questions."

Over 600 people registered for the first webinar held at the beginning of October which provided useful information about timelines and requirements for conversion to ISO 27001:2013. Feedback from attendees in Twitter (@ITGovernance) suggests that the ISO 27001:2013 Transition Webinar was a "crisp and clear presentation of ISO 27001:2103" and an "excellent transition webinar".

Those who want to find out more about the ISO 27001:2103 changes and how they will affect their business, can register for the second webinar on 22 October 2013 here: www.itgovernance.co.uk/media/events-and-presentations/iso27001-2013-transition-masterclass-webinar-with.aspx.
