

14th China International Electric Power & Electric Engineering Technology Exhibition

SHANGHAI, SHANGHAI, October 17, 2013 /EINPresswire.com/ -- China EPower is the leading comprehensive power exhibition in China, covering power generation, power transmission and distribution, power automation, power construction, energy conservation, environmental protection and electric products. Held annually in Shanghai for 12 years, it has seen the participation of more than 3,400 exhibitors and 280,000 target visitors from more than 30 countries and regions.

With rapid developments in China's power industry, China EPower has grown to be the most established exhibition for global power industry players, thanks to its quality networking platform, high-value service, representation of cutting-edge products and technologies, and international participation.

Exhibitor profile:

Power generation

Power transmission and distribution equipment

Power system automation

Power metering and management

Communication and Information Systems

Electrical material

Construction equipment and protection

Visitor profile:

Consultants

Company Owners / Partners

Consultants and Engineers

Consulting Engineers, Project developers and Construction Firms

Contractors

Developers

Engineers

Environment Agencies

Facility Managers/Directors

Importers, Distributors and Agents
