“

The presentations were excellent, a lot of valuable information. It was very interesting to meet other attendees and talk about their areas of expertise.”

*2013 Border Security Attendee*

As a relatively new member of the European Union, Bulgaria faces geo-political challenges unlike many of its co-members. Along with Romania, it is also doing everything it can to be accepted in to the Schengen Area. This necessitates effective border policing and this position as a border security hot spot makes it an ideal and intriguing venue.

Join leading industry specialists in Sofia and hear about the case study from Haiti covering cross border criminal

activity and irregular migration, Brazil's strategy for protection of port security, and preparations for upcoming Olympics and World Cup. Learn the new approaches of the Schengen border security evaluation mechanisms and discuss the 21st century challenges of border security for developing countries.
