

Making continuous processing a reality in the pharmaceutical industry

SMi invites you to attend the 2nd Quality by Design. Register by 31st October and take advantage of our £300 discount

LONDON,, LONDON, UNITED KINGDOM, October 30, 2013

/EINPresswire.com/ -- "What are the drivers for adopting continuous processing?

- Cost, time and material savings throughout the product life-cycle associated with more consistent product quality

- The development of in-line measurements and process control

mechanisms to correct any changes are critical for success

- Potential for real-time quality assurance (parametric release) and reduced analytical costs" - Continuous processing in the pharmaceutical industry changing the mindset ,Plumb K. (2005). Chem. Eng. Res. Design 83(A6), 730-738

On this topic SMi is proud to announce Mr Marcel de Matas, Principal Scientist Formulation Science, AstraZeneca will be presenting at the 2nd annual [Quality by Design](#) conference about Shifting tides in pharmaceutical manufacturing — Making continuous processing a reality

- The case for and barriers to the adoption of new technology in the pharmaceutical industry
- The journey so far regarding implementation of continuous processing for solid oral dosage forms
- Examples of where continuous manufacturing methods have been explored

Why attend this event:

- Employ QbD to design a formulation process. Harness raw material analysis and control strategy

- Utilise PAT tools and applications for pharmaceuticals, biopharmaceuticals and ATMPs

- Use risk assessment and management to best effect

- Accurately include QbD information in regulatory document filings, including those for ICH Q8

and ASTM E 2500

•Apply multivariate data analysis to maximise product development and patient outcomes

Plus an interactive half-day post-conference workshop: Successfully Implementing Quality by Design: An introductory Workshop QbD & PAT, hosted by Peter Boogaard, Founder, Industrial Lab Automation. Wednesday 26th February 2014, 9.00am – 13.00pm, Marriott Hotel Regents Park, London, UK.

For more information on the programme and speakers please visit the [website](#). [Register](#) by 31st October and save £300
