

# DEVOLRO Unique Luxury Off-road Car

---

*Specially for a Motor Show in Dubai Devolro Performance Car Studio made a Devolro Pretty Pearl car colored in pearl with grain gold.*

DUBAI, OAE, November 5, 2013 /EINPresswire.com/ -- [Devolro](#) got success at The New York Auto Show in 2013 and at the 10th Top Marques Monaco Auto Show won world recognition not only for its individual design, original tuning, the diversity and richness of interior trims, but its power and safety of off-road driving.

For one year Devolro car has been tested in different parts of the world for its stability and durability. In Russia it made its way through forests of Siberia. In the United States it visited peak points of Colorado Mountains and passed through swamps of hot Florida. In Asia Devolro has mastered heaths and deserts in different countries. In South America it crossed the continent from Rio de Janeiro to the shores of the Pacific Ocean. In general, it has covered the distance of dozens of thousands of kilometers in difficult conditions and without breakdowns.

Devolro cars are based on Toyota Tundra. Many components are modified, changed and remodeled due to feedbacks and experiences of 4 WD cars' owners of Class B and C. All parts are made in the US with 100% guarantee of quality. Car assembly takes place in Miami, Florida, and custom made cars leave to any part of the world.

Edward Orlov, Devolro Company's founder and owner, said, "Arab car fans are greatest connoisseurs of luxury and functional cars. We are happy to be at Dubai international Auto Show 2013 to present Devolro and our ability to enrich luxury car market of the Arab countries, as well as satisfy practical needs of agricultural and oil industries where safe and custom-built automotive engineering is required."

The main criteria that guide Devolro in creating cars are permeability, comfort, security, originality and functionality.

We invite you to explore Devolro and converse with its creators at Dubai International Motor Show on 5-9 November, 2013 at The Dubai International Convention & Exhibition Centre. You can also visit our website and contact us in the US and Russia.
