

# Summit Homes' Chateau Display Home Offers Different Take On Large Homes In Perth

*Summit Homes' Chateau display home in Trinity Estate is unique among large homes in Perth. Front living design makes this home stand out from the rest.*

PERTH, WEST AUSTRALIA, AUSTRALIA, November 26, 2013 /

EINPresswire.com/ -- [Summit Homes' Chateau](#) display home is worth a look.

The four-bedroom, 2-bathroom home is unique among luxury homes in Perth these days due to its front-living design and French provincial theme. The Chateau display home is now available for viewing in Trinity Estate.

Visit Summit Homes for new construction or to demolish and build in Perth.

"The Chateau is truly unique among home designs today. It is modern, but retains classic French appeal. It is large but comfortable and it has the perfect blend of privacy and public gathering spots. But what really makes the Chateau so different is the front living design. Walking in to Chateau means walking in to the open living areas immediately. Visitors do not have to walk past the bedrooms to get to the kitchen, dining or living room areas, which gives the homeowners greater privacy than they'd have with rear-living designs," said Sandra Muller of Summit Homes

spots. But what really makes the Chateau so different is the front living design. Walking in to Chateau means walking in to the open living areas immediately. Visitors do not have to walk past the bedrooms to get to the kitchen, dining or living room areas, which gives the homeowners greater privacy than they'd have with rear-living designs," said Sandra Muller of Summit Homes ([www.summitnewhomes.com.au](http://www.summitnewhomes.com.au)).

The Chateau is the first of Summit's [award-winning](#) large homes in Perth to offer front living. In a front living design, the kitchen, living and dining and other public areas are clustered near the front of the home while the bedrooms and private areas are located to the rear. In most home designs, this allows family members and guests to access the courtyard located behind the home. Summit considered this layout and adjusted the design accordingly when they designed Chateau. Instead of a traditional rectangular or square home, Chateau is a C-shaped design that wraps around the courtyard. The display home features a pool with a waterfall and an electronic

retractable shade sail in the courtyard, all viewed through massive windows. The kitchen, living and dining area and the master suite all overlook the courtyard with access granted from the living and dining area and the master suite.

Chateau has three minor bedrooms, a master suite with an ensuite and private entrance to the courtyard, integrated living, dining and kitchen areas, a feature bar and a home theatre, a study, an IT nook, an attached 2 car garage and plenty of storage space to keep families organized. Stylish and modern touches blend with classical styling to lend an air of elegance to the home.

The Chateau design is suitable for those who wish to demolish and build in Perth and fits blocks up to 17.50 mm. The home offers 229.76m<sup>2</sup> of living space.

Visit the Chateau display home at 9 Altea Way, Alkimos WA 6038, Australia. Open hours are Monday and Wednesday from 2pm until 5pm, Saturday, Sunday and Monday Public Holidays from 1pm until 5pm.

About Summit Homes:

Summit Homes is part of the Summit Homes Group and is committed to building excellence and customer satisfaction and has helped thousands of Western Australians realise their new home dream.
