

Executive AirShare Selects BoldIQ Flight Scheduling Software

Executive AirShare has selected BoldIQ's fully integrated all-inclusive operations management system and optimization engine.

KANSAS CITY, MO, USA, December 2, 2013 /EINPresswire.com/ -- Regional fractional aircraft ownership company Executive AirShare today announced the company has selected BoldIQ's ASTRO fully integrated all-inclusive operations management system and SOLVER optimization engine to manage aircraft crew, flight and maintenance schedules for the rapidly growing company.

BoldIQ's integrated software fully automates the flight planning and dispatch process, dramatically reducing the workload on flight planners, dispatchers and pilots, while improving data accuracy and enabling more, timely decision-making.

Executive AirShare, in the midst of its fourth consecutive year of double-digit growth, selected the BoldIQ software based on its ability to ensure efficient operations for the company's growing fractional and managed fleet, which currently includes a total of 47 jet and turboprop aircraft and 92 pilots serving more than 160 shareowners, members and management customers.

"Ensuring our shareowners have maximum intraday flexibility is one of the reasons they choose Executive AirShare and our 'per day' aircraft availability model," said Harry A. Mitchel, vice president of operations, Executive AirShare. "The BoldIQ software not only ensures that we're operating at maximum efficiency, but also features the ability to adapt and accommodate our growth as we add new aircraft and serve new markets."

"The New Green Economy is about making intelligent business decisions that lead to sustained profitability while reducing any secondary impact on the world around us," said Roei Ganzarski, President & COO of BoldIQ. "Performing more customer flights with less resources, less fuel and fewer emissions, is the competitive advantage we enable our customers in a world of high volatility and increasing customer expectations."

About Executive AirShare

Executive AirShare serves shareowners in Kansas City, Mo., Wichita, Kan., Tulsa and Oklahoma City, Fort Worth, Dallas, Houston, Austin, San Antonio and Buffalo, N.Y. Its subsidiary, Executive Flight Services, manages aircraft for owners from bases in Fort Worth, Dallas, Wichita, Kansas
