

Racing Inspired Design Front And Center In 2014 Jeep Grand Cherokee SRT8

Find the new 2014 Grand Cherokee SRT8 in Brisbane at Northstar Chrysler Jeep Dodge.

REDCLIFFE, QLD, AUSTRALIA,
December 3, 2013 /EINPresswire.com/
-- According to [Northstar Chrysler Jeep Dodge](#) in Redcliffe, the Jeep Grand Cherokee keeps getting better. The

new Grand Cherokee SRT8 is a prime example of this with racecar industry-inspired form and function. Engineered to deliver exceptional performance while minding fuel,

the Grand Cherokee SRT8 provides a luxurious ride at a price point under \$80,000. The Jeep dealer in Redcliffe is currently booking test drives of this [high-performance luxury SUV](#).

This racing inspired SUV can be booked for test drives with the Jeep dealer in Redcliffe immediately.

"The Grand Cherokee finds new ways to win over consumers year after year and the 2014 model year is no exception. Buyers are first drawn to the looks of the SRT8, but once they get behind the wheel, they are hooked. The Grand Cherokee SRT8 delivers a level of power and control that just isn't available in street autos and drivers are finding that they like it," said [Bob Aldons](#) of Northstar Chrysler Jeep Dodge in Redcliffe (<http://www.redcliffe.cjddealer.com.au/>).

Billed as the "ultimate performance SUV," the Grand Cherokee SRT8 stays true to the classic Grand Cherokee look but is enhanced with LED daytime running lamps and a distinctive bonnet. The bonnet features dual black heat extractors to help keep the engine cool. Similarly, the underside of the SUV has a belly pan with integrated brake ducting to improve cooling and fade performance.

The SUV was purposefully designed with these engine and brake cooling features to balance the powerful new engine. Under the bonnet is a 6.4L HEMI® V8 engine with Fuel Saver Technology that delivers 344 kW of power at 6,250 RPM and 624 N.M of torque at 4,100 RPM. High-performance Brembo brakes counteract that power and deliver a stopping distance of 35 meters from 100-0 km/h.

"What really makes the Grand Cherokee SRT8 stand out is the performance. Simply put, it is the

most powerful Jeep ever going from 0-100 km/h in just 4.9 seconds and topping out at 255 km/h. This is a street car that available to the general public, not a racing auto accessible to only a select few. It's not at all a surprise that we've had the types of reactions that we have had to the SRT8. Everyone wants to try it out," said Aldons.

Booking a test drive of the Grand Cherokee SRT8 at Brisbane dealer, Northstar Chrysler Jeep Dodge is as simple as calling the dealership at 07 3106 0264 or visiting in person at 320 Anzac Avenue, Kippa-Ring 4021. Test drives can also be booked online, [here](#).

About Northstar Chrysler Jeep Dodge Redcliffe:
