

# Fujinon EVE 400 Endoscopy Video Processor and Light Source

*UJINON EVE 400 VIDEO PROCESSOR, EVE 400*

*LIGHT SOURCE both units are in excellent condition. Set does include a keyboard.*

SINGAPORE, SINGAPORE, SINGAPORE, December 12, 2013 /EINPresswire.com/ --

[Fujinon EVE 400 Endoscopy](#) is the first processor in the world to make endoscopy completely digital, so that there is no loss of information during signal conversion. The result is high resolution and precise image quality for examining even the smallest changes in the tissue and mucosa. This represents a marked

advance in the diagnosis of findings, which can be easily and quickly documented using a continuously digital process — both on the network and on a compact flash memory card.

“

Fujinon EVE 400 Endoscopy is the first processor in the world to make endoscopy completely digital, so that there is no loss of information during signal conversion.”
