

# SMi Group Release Conference Agenda for 3rd Annual Summit on Smart Water Systems

*SMi are proud to present the 3rd annual conference on Smart Water Systems, taking place on 28th and 29th April 2014, London UK.*

LONDON, LONDON, UNITED KINGDOM, December 18, 2013 /EINPresswire.com/ -- [Smart Water Systems 2014](#) will be supported by sponsors such as NWAWE and Waterfall Security Solutions, plus official media partners including British Water, Global Water Intelligence and SBWWi.

Water utilities are relying on aging or inadequate infrastructure to meet growing demand, tough environmental targets, and increasing regulatory requirements. At the same time, utilities need to reduce non-revenue water losses and improve their operational efficiency.

Through industry driven case studies and keynote presentations from leading water utility companies, this event will aim to provide a comprehensive overview on smart water systems with a focus on new initiatives and technologies within smart metering, smart water irrigation, leakage, monitoring, optimising water usage, regulation, sustainability, policy plus much more. For further details on the agenda visit: [www.smart-water-systems.com](http://www.smart-water-systems.com)

Andrew Tucker, Water Strategy Manager from Energy Saving Trust, who is scheduled to present at the summit commented:

"The Smart Water Systems conference provides an opportunity for multi-sector input into a rapidly growing agenda. With increasing drivers for smart technologies running in parallel to an evolving consumer demand for information, this event is a great platform to say what needs to

The poster features a blue and white water meter on the left, with water splashing at the bottom. The text on the right reads: "SMi present the 3rd annual conference on: Smart Water Systems", "Marriott Hotel, Regents Park London, UK", and "28 - 29 APRIL 2014". The website "www.smart-water-systems.com" is at the bottom. The SMi logo is in the top right corner.

Smart Water Systems 2014

This event is a great platform to say what needs to be said, and push the agenda to think of the consumer solution first"

*Water Strategy Manager,  
Energy Saving Trust*

be said, and push the agenda to think of the consumer solution first. "
