

The Agenne Corporation Announces New Tiered Pricing for Registry Valet Gift Registry Software

New tiered pricing structure for industry leading Registry Valet gift registry and wish list software.

DURHAM, NORTH CAROLINA, UNITED STATES, January 10, 2014 /EINPresswire.com/ -- The Agenne Corporation is pleased to announce an all new tiered pricing structure for their Registry Valet gift registry and wish list software. Registry Valet is part of Agenne's growing family of ecommerce business solutions.

The Agenne Corporation, an industry leader in ecommerce and internet security software has provided innovative ecommerce software and internet security solutions to businesses in the US, Canada, and the UK for nearly two decades.

"Our new tiered pricing structure allows businesses, both web-based and brick & mortar, to start small with a gift registry or wish list system and grow as their business needs evolve," said Gary Winsom, Director of Gift Registry Systems for Agenne. "We continue to grow our user base with innovative and affordable solutions and look forward to 2014 being an exciting year for this growing market segment."

With the new pricing structure, Registry Valet provides gift registry solutions to businesses from start-ups to established merchants to large chains of retail stores at scale-appropriate pricing. The underlying architecture of the system is built to handle even the most demanding business needs. The entry level version of Registry Valet can be used free of charge and includes the free mobile app.

The software features a broad range of features and functionality that merchants need today including its innovative iPad app for building registries or wish lists right in the store, barcode scanner software which ties into the gift registry system for larger showrooms and stores, an easy to use guestbook system, as well as the Registry Valet mobile app for customers to create and manage their gift registries on-the-go.

Registry Valet's complete design flexibility allows even the most design-conscious merchant to customize the look and feel of the software to their specifications.
