Operators who want to buy casino games might be interested in knowing that CasinoWebScripts gaming developers released "Cool Treasures", a delightful slot game whose design is based on the North Pole theme. A spokesman for CasinoWebScripts expressed, "We wanted to develop this enticing game full of cool rewards in order to cater for our clients who seek to buy a winter-themed casino game that is fun, refreshing and full of surprises. The high-quality graphics, accurate sound effects and the special features of this game really offer something enjoyable for everyone to love."

"Cool Treasures" presents the story of a thriving village of Eskimos who peacefully live alongside their friends, the North Pole critters. The panels of the slot game feature baby polar bears, a penguin, a seal and a cute little fox. The lazy polar bear that sits in the sun with glasses on while drinking cocktails on an iceberg is one of the most generous of them all. If gamblers hit at least three polar bear symbols, they will be redirected to the "Cool Treasures" bonus, where they choose on which ice cubes the penguin will hop, in order to give them valuable rewards.

Players will also reveal a Jackpot bonus when at least three dollar-sign icebergs appear on the screen, feature in which the wise penguin will spin an ice wheel and offer cool prizes to the gamblers. Besides the enticing bonuses, "Cool Treasures" comes with an Eskimo igloo expanding wild and an original freespins mode. Furthermore, if players hit 5 of a kind, a glamorous animation will appear on the screen.
