

Innovative Central New York Printing Company to Become First Clean Room Printing Facility

SYRACUSE, NEW YORK, USA, January 15, 2014 /EINPresswire.com/ -- HP Mile a leading Central New York printing company focused on printing labels for pharmaceutical and biotech companies has partnered with HealthWay the Global leader in [air cleaner](#) manufacturing to provide the first clean room printing facility in Central New York.

HP Mile a leading Central New York printing company focused on printing labels for pharmaceutical and biotech companies has partnered with HealthWay the Global leader in air cleaner manufacturing to provide the first clean room printing facility in Central New York. HP Mile utilizes the latest technology to produce 100% defect-free labels for customers. Capitalizing on over 75 years combined experience in printing for the pharmaceutical industry HP Mile's most recent investment in clean air printing facilities will be one of the first of its kind in all of New York State.

Small [ultrafine particles](#) can be released during the printing process which can potentially contaminate labels. HealthWay's advanced DFS technology is the first technology proven to capture 99.99% of all particles down to .002 micron which is ten times smaller than the smallest known virus size. Vinny Lobdell president of HealthWay stated, "HP Mile's commitment to clean air not only provides a more advanced and defect free product for its customers but also shows their commitment to the health of their employees." He further added, "Mike Brady CEO of HP Mile is constantly on the leading edge of innovation in the printing industry and is always looking for ways to exceed customer expectations."

HP Mile has the latest printing and inspection equipment. They have full UV capability on their presses and several digital video inspection systems on their printing lines. Their inspection process compares each label to a stored .pdf image at speeds up to 1000 images per minute. For more information on HP Mile visit www.HPmile.com

For more than 30 years, HealthWay has provided the most effective technology to improve indoor air quality. Their innovations are used worldwide in numerous types of applications, from

medical facilities and [clean rooms](#) to residences, hotels and cruise ships. For more information on HealthWay visit www.healthway.com
