

SMi Group Releases Agenda for the 3rd Annual Summit on Antibody Drug Conjugates

SMi group announces that registration is now live for the 3rd annual ADC Summit: Making your smart bomb smarter – creating innovative antibody-drug conjugates.

LONDON, LONDON, UNITED KINGDOM, January 17, 2014 /EINPresswire.com/ -- Antibody Drug Conjugates (ADCs) offer the promise and potential of delivering powerful tumour-killing activity with the advantage of reduced side effects for cancer patients. With the ADC market forecasted to reach \$9 billion by 2023, scientists believe that further improvements and research in ADC design can result in a new generation of agents.

Following on from this, SMi's 3rd annual [ADC Summit](#) comes at the perfect time to focus on innovative manufacturing techniques, preclinical and clinical data and next generation ADCs, bringing together key industry experts from academia, pharma and biotech companies.

Key speakers this year include:

Good insight into industry knowledge and needs"

University College London

- Dr Mahendra Deonarain, Chief Scientific Officer, Photobiotics
- Dr Adeela Kamal, Associate Director, R&D, Oncology Research, MedImmune
- Philip Howard, PhD, Chief Scientific Officer, Spirogen Limited

- Dr Trevor Hallam, Chief Scientific Officer, Sutro Biopharma
- Dr Ronald Elgersma, Project Leader, Antibody-Drug Conjugates, Synthon
- Dr Erica Hong, Scientist, ImmunoGen
- Dr Hagop Youssoufian, Executive Vice President of R&D, Progenics
- Dr Pamela Trail, Vice President Oncology, Regeneron

To view the full speaker line-up visit the conference website at www.adcsummit.com

ADC Summit 2014 will aim to provide:

- Cutting edge presentations and key case studies from leading ADCs experts on key topics such as nano-delivery systems, advancing preclinical development to accelerate ADCs into the clinic, next generation ADCs and manufacturing challenges
- Peer to peer networking opportunities with industry and academic opinion leaders including Photobiotics, MedImmune, Spirogen, Synthron plus many more...
- The latest developments pertaining to the components of ADCs (payload, antibody and linker)

- Round table sessions to discuss creative strategies in making the “smart bomb” more intelligent when building your oncology arsenal
