

Home Entertainment System Retailer Offers Advice on Choosing the Right Cutting-Edge Sound Technology

Hy Haddad, president and founder of HDH Intelligent Technologies, music lovers should consider the Sonos Playbar for all of their home audio needs.

NEW YORK, NY, UNITED STATES, January 20, 2014 /EINPresswire.com/ -- When it comes to [home audio systems](#), Hy Haddad, president and founder of HDH Intelligent Technologies (<http://www.hdhtech.com>), knows his stuff.

“With more than three decades working in the [home audio](#) industry, I can honestly say that I have sold and installed some of the best audio products on the market,” says Haddad, “and I am always looking for the latest and best technologies for our clients.”

When it comes to home audio, for example, Haddad recommends the Sonos Playbar for its incredible clarity.

“With nine amplified speakers —six midrange and three tweeters—the Sonos Playbar replaces the steady drip of a television’s built-in speakers with deep booms, crystal clear whispers, and huge waves of live concert sound,” says Haddad. “With automatic equalization, the system self-adjusts for rich, seamless performance.”

Haddad says that the Sonos HiFi sound is a popular choice for his customers looking to enhance their HiDef television experience.

“The Sonos playbar can flood any room with epic, full-theater HiFi sound,” Haddad says. “In addition, it can wirelessly stream your entire music catalog through the same device.”

Sonos Playbar

“The Sonos playbar does so much more than just enhance your audio experience,” says Haddad. “It can be your all-in-one home entertainment device.”

Best of all, Haddad says that the Sonos Playbar is easy to use. Just connect the playbar to your television using a single optical cable and it plays everything connected to the TV, including cable boxes and game consoles, and pair it up w a SONOS sub for earth shattering bass etc

“With the Sonos Playbar, you are in control,” Haddad explains. “You can control the playbar volume using your existing television, cable or universal remote. For streaming music, you can simply download the free Sonos Controller App for your smartphone, tablet or computer.”

To learn more about the Sonos Playbar, visit us online (<http://www.hdhtech.com/sonos-playbar.html>) or come on in and feel the sheer power for yourself.

HDH Intelligent Technologies, based in Brooklyn, NY, is a provider and custom installer of home electronic and integration technologies. HDH serves both commercial and residential customers by providing lighting control systems, security & CCTV, audio/video, telephone systems, home theaters, and HVAC control & automation. Serving the entire tri-state area, no job is too big or too small for the HDH staff, from hanging a plasma display on a wall, to installing a full automation and control system.
