

Value Added Systems Offers Singapore Incorporation in Under Two Hours

SINGAPORE, SG, January 21, 2014 /EINPresswire.com/ -- Value Added Systems offers small and medium businesses full-scale services for incorporating and operating within Singapore. The company now provides complete company registration within Singapore in under two hours.

Conducting business in Singapore has never been easier for new corporations, with Value Added Systems now providing services to navigate the requirements of the Singapore Companies Act. Both local companies and foreign groups can obtain the necessary legal and financial paperwork to officially incorporate within Singapore in less than two hours, according to Value Added Systems.

"We bring over 25 years of experience in financial services," says the company founder, [Sim Mong Chai](#). "We excel at accounting and [corporate secretarial services](#), but our assistance in helping brand new companies incorporate so quickly is perhaps our most appealing service for international corporations."

Starting a business in Singapore takes time, and Value Added Systems aims to help businesses complete the process quickly and smoothly. The company's experience in Singapore incorporation positions them to guide new businesses through the registration process without delays or problems.

Mr. Sim, a veteran account and financial controller in Singapore for over 40 years, recognized that Singapore business regulations have created a strong need in the market for assistance in incorporating and filing in Singapore.

Value Added Systems has emerged as the leader in business services companies for focusing on handling the administrative, secretarial, and financial issues for small and medium businesses in Singapore. To conduct business in the country, each company must be incorporated within the nation and adhere to a set of regulations, such as having a company secretary on staff at all times, with a physical presence in Singapore.

International companies and small local businesses can benefit from hiring a company secretary to keep on retainer. Instead of needing to employ a dedicated staffer on location in Singapore, a business can hire a company secretary for a monthly fee through Value Added Systems.

The company's other offerings include filing annual paperwork, general and specialized [accounting services](#), business consulting, and other financial and corporate services in Singapore.

About Value Added Systems Pte. Ltd.

Mr. Sim founded Value Added Systems in 1989, after decades of leadership and accounting experience in Singapore and throughout the Southeast Asia market. He has managed major industrial corporations and overseen international corporate mergers and restructurings while establishing himself as a leading voice on both financial operations and seeing corporations through financial crises.

Businesses can contact Value Added Systems about their services or to inquire about incorporating in Singapore at any time. They are online at <http://www.valueaddsys.com> and can set up corporate services consultations by phone or email.
