

QiSQi Identification Solutions secures financial transactions of crowdfunding platform WeTradeNet with biometrics.

WeTradeNet (WTN) partnered with QiSQi Identification Technologies to secure financial transactions with biometric fingerprint identification and verification.

WELLINGTON, SOMERSET, UNITED KINGDOM, January 28, 2014 /EINPresswire.com/ -- WTN sets the boundaries for crowdfunding platforms by adhering to these principles: Transparency for the investors and the business owners, high security in the trading of obligations and shares, transparent communication between the users and the company.

Therefore, the requirements of WeTradeNet were demanding: fast and flexible trading, multi-browser supported and highly secured transactions.

On top, [QiSQi](#) integrated a biometric fingerprint registration and verification solution on the Java based Vaadin Framework, a scoop on itself.

The biometric verification will prevent definitely identity theft, one of the major internet crimes of the century.

About QiSQi Identification Technologies

QiSQi Identification Solutions consult, implement and develop identification technologies for governments, federations and industry.

With over 10 years' experience in [biometrics](#) and 25 years in Secure Documents, QiSQi has a significant place as integrator and solution provider.
