

Global 7 Technologies Announces Launch of Global Discovery Network During LegalTech New York 2014

Big Data eDiscovery platform will be officially unveiled and available for demos during the largest legal technology event of the year

CLEVELAND, OH, USA, January 28, 2014

/EINPresswire.com/ -- Global 7 Technologies

(www.global7technologies.com) today announces the launch of Global Discovery Network (GDN)

(www.SimplifyingEDiscovery.com), a discovery data management platform which provides a simplified method of conducting first pass reviews, cross border e-discovery, on-demand processing, and early data assessment to legal professionals worldwide.

Global Discovery Network is extremely user friendly! The navigation tools make this product easy to jump right in and start your review."

Betty Delfosse-Henninger

GDN is a secure cloud platform, designed for the global legal industry, which enables the easy review and management of paper and electronic business data typically associated with [litigation](#), arbitration, investigations and [compliance](#).

Global Discovery Network features:

* Unlimited User Access Included

- * Mobile Apps for iPhone, iPad and Android Devices
- * Drag-n-Drop Data Uploads
- * Ideal for Paper and Electronic Discovery
- * PST, ZIP and Native File Processing
- * Dynamic Foldering
- * Advanced Searching
- * Native File Preview
- * Search Hit Highlighting
- * Full Unicode Support
- * Bulk Tagging and Coding
- * Attorney Commenting

Global Discovery Network

Global Discovery Network from
Global 7 Technologies

- * TIFF, PDF and Native File Exports
- * Image Import and OCR
- * Clean User Interface
- * [Big Data](#) Technology Infrastructure
- * Global Server Network (Brazil, Ireland, Japan, Singapore, United States)

“We are really excited about the official launch of GDN and look forward to sharing the product during LegalTech New York,” stated Brad Mixner, CEO of Global 7 Technologies. “GDN was designed to bring simplicity to the complicated world of discovery. We take pride in its clean user interface, which enables quick learning for new users and smooth navigation for power users. Data uploads are as easy as selecting a folder from your hard drive or even dragging and dropping a group of files, and files are available for review in as quick as a few minutes, versus a few hours or even days. We have received very positive user feedback to date and look forward to getting it in the hands of even more people.”

According to Betty Delfosse-Henninger, litigation support paralegal for Wegman Hessler & Vanderburg (www.wegmanlaw.com) and current GDN user, “Global Discovery Network is extremely user friendly! The navigation tools make this product easy to jump right in and start your review.”

“The Global Discovery Network platform was the perfect evidence review platform for Asia in many ways – ease of use, affordability, and scalability. Its feature sets are perfect for the needs of our Asian markets and resonate with our audience. From large law firms to boutique dispute resolution firms, the platform has been extremely well received,” noted Serena Lim, director, Litigation Edge (www.litiedge.com) and Global 7 Technologies partner.

GDN has apps available to enable users to securely log in through their mobile device (iPhone, iPad and Android devices) to view and retrieve their discovery documents. The apps are available at:

Apple iTunes (<http://itunes.apple.com/us/app/globaldiscoverynetwork/id718081102>) and Google Play (<http://play.google.com/store/apps/details?id=com.repo.gdn>).

Global 7 Technologies (G7T) is establishing a global network of partners who are empowered to offer GDN to law firms, corporations, agencies and service providers. Each G7T partner manages the sales, consulting project management and front line user support for each client and case, while G7T manages the development and support of the platform infrastructure.

Company executives will be available during LegalTech New York to show the product in a demo environment. If interested in setting up an appointment to see GDN or to discuss the G7T Partner Network, email Brad Mixner at brad.mixner@global7tech.com.

About Global Discovery Network

The Global Discovery Network (www.GlobalDiscoveryNetwork.com) is a secure cloud platform designed for the global legal industry that enables the easy review and management of electronic business data typically associated with litigation, arbitration, investigations and compliance. Designed by Global 7 Technologies (www.global7technologies.com) to achieve strength through simplicity, Global Discovery Network features a clean web interface which enables quick learning for new users and smooth navigation for power users. There is no software to support, no long waits for the data shipping/processing cycle and no complicated pricing schemes.
