

Social Media Networking for The News In Two Smartphone Application

Facebook and Twitter links off The News In Two news article summations puts the power of news distribution in the hands of the general public.

LOS ANGELES, CA, UNITED STATES, January 30, 2014 /EINPresswire.com/ -- Los Angeles, Calif. – The revolutionary Smartphone application The News In Two is proud to announce today social media updates for iPhone users! Users of The News In Two will now be able to link out their favorite headlines and summations to followers, friends, and family on Twitter and Facebook making The News In Two even more user friendly.

The newest version of The News In Two, a Smartphone application that provides a free two-minute audio broadcast of breaking news stories, also provides local weather updates and easier to navigate picture screens.

Users who download the free application, available for on iPhone and Android Smartphones, can easily access audio news files by use of “play” and “pause” buttons after highlighting the news genre of their choice. With the touch of their screen, Smartphone users can access a summary of the related news headline and click a link to a full-length article on any given story for further information.

"We have added another step in the evolution of how people receive their news via today's Smartphone technology. Combing the news with social media functionality helps keep the world up to date on breaking news by giving individuals a voice worldwide and within their community," stated Ryan Wright, co-founder of Pinnacle Applications.

"With the new changes we are taking The News In Two app to the next level," added Co-Founder Chris Berry.

Genres featured in The News In Two include:

Breaking News – Breaking news delivered as stories happen
