

# Network with confirmed attendees including Shell, Gazprom, Anadarko Petroleum and more at SMI's Floating LNG Conference

*Floating LNG will assess LNG market dynamics and economics, technology innovations, case studies plus project finance and risks associated within this industry.*

LONDON, UNITED KINGDOM, February 3, 2014 /EINPresswire.com/ --

According to the latest market report from energy research group Douglas-Westwood, [FLNG](#) market expenditure is to reach \$64.4 billion in 2020. The majority (66%) is attributed to

liquefaction infrastructure, with the remainder from import and regasification facilities. It is against this backdrop that SMI's 2nd annual [Floating LNG](#) conference will focus on the challenges involving construction and technology, LNG market dynamics, new business opportunities and how to exploit them to their full potential. The two-day [conference programme](#) will also feature senior decision makers from leading FLNG innovators including INPEX, United LNG, Saipem and Excelerate Energy among others sharing valuable insight on current and emerging projects from across the globe.

Key presentations at SMI's 2nd annual Floating LNG conference include:

- Pioneering technology for floating LNG industry  
Dinar Indriana, Senior Project Communication Coordinator, INPEX
- The FLNG project at Main Pass Energy Hub  
Christopher Caudill, Director, United LNG
- LNG Offloading: The Evolution towards Tandem Offloading  
Benjamin Mauries, Floaters Technologies Development Manager, Saipem
- Floating Regasification - Market Update and Future Trends

Edward Scott, Chief Operating Officer, Excelerate Energy

Don't miss the post-conference workshop taking place on 19 February 2014:  
Legal and commercial issues affecting the FLNG industry | Led by Norton Rose Fulbright LLP  
The workshop will have an interactive format. We will cover a number of fundamental issues currently facing the FLNG industry including the lessons that can be applied from onshore project development to FLNG project development, relevant shipping issues (including an understanding of the liability regime and quiet enjoyment protection afforded to field operators) and how best to structure your FLNG transaction.
