

Insight Pharma Reports Announces Prenatal Diagnostics Testing Report

Prenatal Diagnostics: Invasive testing, noninvasive testing, and rising maternal screening methods for preeclampsia and preterm labor

NEEDHAM, MASSACHUSETTS, UNITED STATES, February 5, 2014 /EINPresswire.com/ -- NEEDHAM, MASS. – [Insight Pharma Reports](http://www.insightpharmareports.com) announces Prenatal Diagnostics: Invasive testing, noninvasive testing, and rising maternal screening methods for preeclampsia and preterm labor report. The newly released Insight Pharma Report discusses improvements in invasive procedures (karyotyping vs. cytogenetics), and the rise of noninvasive screening methods and their impact on prenatal healthcare.

In addition to covering several aspects of prenatal diagnostics, this report also includes specifications of particular instruments, exclusive interviews with CEOs, CSOs, and Vice Presidents of the participating companies, which Ariosa Diagnostics, Metabolomic Diagnostics Natera, NX PharmaGen, Sequenom, Silicon Biosystems Verinata Health. Specific areas of focus include company goals, customer feedback, challenges encountered, competitive advantage, platform pricing, and future endeavors. A survey capturing the demographics of the prenatal industry is presented at the end of the report, specifically highlighting organizational background, areas of research, challenges encountered, and applications in development.
