

ENISA speaking at European Smart Grid Cyber and SCADA Security Conference

4th annual European Smart Grid Cyber & SCADA Security Forum will open its doors in just 2 weeks. Leading experts will meet to discuss future SCADA Technologies.

LONDON, LONDON, UNITED KINGDOM, February 27, 2014 /EINPresswire.com/ -- "The EU's cyber security agency ENISA signals that assessing the threats for smart grids is crucial for their protection and is therefore a key element in ensuring energy availability.

Security is crucial for gaining the trust of the EU citizens on using these services. However, there are many security challenges to overcome in order to ensure their successful deployment." (ENISA, Press-Release, Jan 30, 2014).

Konstantinos Moulinos, Expert in Network & Information Security, ENISA, will be speaking at the 4th annual European Smart Grid Cyber and SCADA Security Conference (London, 10-11/03/2014) on "Minimum Security Measures for Smart Grids".

This industry leading event will address the latest updates on the threat landscape of cyber-attacks, as well as privacy, integrity and security of data involving Smart Grid technology.

Event's website: <http://www.smi-online.co.uk/2014cybergrids4.asp>
