

# Leather Honey Introduces Ultimate Savings Bundle Featuring New Leather Cleaner

KEARNEYSVILLE, WV, USA, March 3, 2014 /EINPresswire.com/ -- Leather Honey has introduced two new leather care packages featuring its premium leather cleaner and conditioner, as well as a cloth and brush for proper and effective application.

Leather Honey LLC, makers of Leather Honey Leather Conditioner, have announced the availability of new, comprehensive leather care bundles for those who are serious about leather care and have serious leather care needs. Due to the success of the recently-released Leather Honey Leather Cleaner, Leather Honey has decided to create these packages to bundle everything needed to clean, condition and protect leather in one package for an affordable price. The bundles are available at their website (<http://www.leatherhoney.com>).

The concentrated Leather Honey Leather Cleaner is an all-natural leather cleaner that does not include toxic or drying chemicals. Leather Honey Leather Cleaner can be used on all types of leather except suede. According to Jim McGowen, founder of Leather Honey, Leather Honey Leather Cleaner "allows for a safe, gentle way to clean anything from leather seats to saddles or leather apparel." The new ultimate leather care bundles include a 4-ounce bottle of Leather Honey Leather Cleaner, enough for two 16-ounce spray bottles of mixed cleaner when properly diluted.

The ultimate leather care packages also include either a half-pint or quart of Leather Honey Leather Conditioner, which is the number-one selling leather conditioner on Amazon.com. Leather Honey Leather Conditioner is meant to restore leather's natural moisture, as well as add a water-resistant protective layer to leather. The conditioner can also be used for new leather to prevent drying and protect against water damage.

Topping off the new ultimate leather care bundles are Leather Honey's cloth and brush. A lint-free application cloth is typically the best way to apply both the leather conditioner and leather cleaner to the surface without damaging the leather. Leather Honey's application brush is designed for applying the leather conditioner to larger items, or items with cracks and crevices that are otherwise unreachable with a cloth.

Leather Honey's premium cleaner and conditioner bundles aim to provide everything needed when it comes to cleaning, rejuvenating, reconditioning and protecting new and old leather, all in one package.

## About Leather Honey

Invented by a retired chemist and the head of a Philadelphia-based manufacturing company, Leather Honey Leather Conditioner has been prolonging the life of leather since 1968. The same formula continues to be sold today. Based in Kearneysville, WV, Leather Honey products are available at select retail locations internationally or online. Visit <http://www.leatherhoney.com> to shop now with free shipping!
