

IT Governance to exhibit at the CRESTCon & IISP Congress 2014 in March in London

IT Governance, the fast-growing cyber security provider, has announced its participation at the CRESTCon & IISP Congress 2014 on 19 March in London.

ELY, UK, March 5, 2014 /EINPresswire.com/ -- IT Governance, the fast-growing cyber security provider and a member of CREST and IISP, has announced its participation at the [CRESTCon & IISP Congress 2014](#) on 19 March in London.

The CRESTCon & IISP Congress brings together leading technical, business and academic experts to address the most critical information security threats and challenges, as well as to collaborate and harness industry knowledge and experience.

IT Governance is at the forefront of Information Security training, essential for increasing knowledge and career development in the Information Security sector. The IT Governance team will be on hand to provide expert advice on cyber security training and qualifications based on the company's extensive experience of delivering accredited information security training courses including CISA, CISM, CGEIT and CISSP.

Delegates interested in [ISO 27001](#) should visit the IT Governance stand to receive first-hand information and advice on implementing the standard or transitioning to the new version 2013. There will be a selection of books on the subject to choose from, including recommended titles focused on ISO 27001.

Finally, as a leading expert in everything related to information security, IT Governance will be advising delegates on [PCI DSS compliance](#) including PCI Penetration Testing. In its capacity of an approved Qualified Security Assessor (QSA) company, IT Governance's primary role is to ensure that an organisation is fully compliant to the requirements as specified in the Payment Card Industry Data Security Standard (PCI DSS).

CRESTCon & IISP Congress 2014 takes place on 19 March in London.

To register for this event visit: www.crestcon.co.uk.
