

Premium Vapes Unveils New Rechargeable Electronic Cigar Kit

Electronic cigarette distributor introduces new Ecigar kit as part of the Vape Master collection.

VIRGINIA BEACH, VA, USA, March 7, 2014
/EINPresswire.com/ -- [Premium Vapes](http://www.premiumvapes.com) has introduced the Rechargeable Electronic Cigar Kit as part of the Vape Master collection. Rechargeable electronic cigars are a rare find for those who enjoy the same taste and feel of an authentic cigar without the ash and smoke.

"The Rechargeable Electronic Cigar offers a soft tip cartridge with a leaf-like wrap finish to simulate the same experience of a traditional cigar," said Paige Koontz, director of online communications for Premium Vapes. "Most of the products currently available on the market are disposable, and our kit offers consumers a longer lasting alternative."

The new Ecigar Kit features a cigar body with an LED ash tip that illuminates during use and a wax-leaf finish, making this product nearly indistinguishable from a real cigar. The kit includes a charger, two cigar flavored cartridges and an instruction manual.

The rechargeable Electronic Cigar Kit is now available through the company's [Premium Vapes website](http://www.premiumvapes.com).
