

SageNext Introduces Cloud Computing Features for CPA and Other Accounting Firms to Work Efficiently

AUGUSTA, GA, USA, March 10, 2014 /EINPresswire.com/ -- Cloud Computing has changed the lives of CPA and other tax and accounting professionals. It's now a need to go with trusted cloud techniques and reveal the benefits of using QuickBooks and Tax softwares online.

Cloud computing has been one of the leading trend around the information technology world in recent years. It has helped small organizations to gain access to the technical resources which were extremely difficult before due to heavy expense, management burdens and other limitations. But, cloud computing has removed all the barriers to benefit all level of organizations in many ways. It has not only made our IT budget a cost effective but also increased the productivity of the organizations. It has made a good impact on tax and accounting practices, hence, many CPA firms, accounting organizations and tax practice firms are widely implementing cloud as their core IT practices.

SageNext is a leading tax and accounting cloud solution provider. The company uses it's SAS70 II and SSAE certified data centers to host many tax and accounting applications like: QuickBooks, Sage 50 (Peachtree), ATX tax, Drake tax, Ultratax, Lacerte etc. There are many [QuickBooks Hosting Provider](#) but below mentioned points prove the SageNext as leader amongst them.

1- A common platform for tax and accounting practices: SageNext helps you to setup a complete online office for you. The online office will be equipped with your tax and accounting applications, Ms Office, document viewer and other required tools and utilities. Surprisingly, the common platform is shared across your entire staff so that a CPA can check what their bookkeeper is doing. The same platform can even share with the clients if they need to provide any input without coming to the CPA firm.

2- Easy to upload and download from server to your local computer and vice-versa: Your tax and accounting data consists of critical business information and you will always need the recent copy of your data with you. SageNext makes the required settings to upload and download your data from [hosted QuickBooks cloud](#) to your local computer.

3- Adequate printing and scanning solution: The company practices with efficient printing and scanning solution so that if you want to print or scan something, you will be able to do with any of your local printer or scanner. Just to notice, printing and scanning is always a challenge while using remote access methods.

4- Free daily data backup: While you are with SageNext, your data is always backed up with powerful backup tool. The backup is encrypted enhancing an additional layer of security to your data. The backup copies are kept at 3 different locations to prevent the data from any physical disasters.

5- 24X7 free technical support: SageNext has a dedicated team for technical support available by 24X7 via chat, phone or email. If you send an email to support for any queries, the maximum response time is 10 mins only.

6- Many years of application hosting experience: We have been dealing in tax and accounting application, including [QuickBooks hosting](#) for almost 5 years. We have more than 500 CPA's and their clients across USA, Canada and other parts of the world. Many testimonials on our website elaborates how efficient we are.

SageNext also deals in all tax and accounting application hosting. Major projects are QuickBooks hosting, PeachTree hosting, ATX hosting, Lacerte hosting, Drake hosting etc.

SageNext Infotech is an application hosting provider dealing in major tax and accounting application hosting services. SageNext is specialized in QuickBooks hosting, ATX tax hosting, Sage 50 hosting, Lacerte tax hosting, Drake tax hosting etc. The company has it's SAS-70 and SSAE-16 certified data centers located in New York and Dallas. SageNext has free data backup, free technical support, no migration and setup cost and no other hidden cost.
