

IT Governance becomes an IISP corporate member to support the information security profession

IT Governance has become a corporate member of the Institute of Information Security Professionals (IISP)

ELY, UK, March 17, 2014 /EINPresswire.com/ -- IT Governance, the leading provider of information security product and services, has become a corporate member of the Institute of Information Security Professionals (IISP) with the goal to support the information security profession and strengthen its links with like-minded individuals.

IISP is a professional body, which accredits information security professionals to ensure that they meet the highest professional standards, with a growing membership-base the Institute has become the focal point of the profession.

Alan Calder, Founder and Executive Chairman of IT Governance, says, "This partnership is of great importance to IT Governance as it enables us to support information security professionals through passing knowledge and skills. We are passionate about information security and as IISP corporate members we'll be in a good position to help meet the evolving information security and IT governance needs of today's organisations."

As part of the new partnership IISP members will be able to take advantage of a 10% discount on all products from [IT Governance's online store](#).

Apart from offering standards, books and documentation toolkits to suit various roles and levels in an organisation, IT Governance delivers a comprehensive range of accredited information security courses including CISA, CISM, CGEIT, CRISC and CISM. The company also provides consultancy services related to management systems implementation and compliance. For more information visit: www.itgovernance.co.uk.
