

Purify Your Body Now Offers Zeolite Pure -- A Safe, Natural Way to Detox Your Body

Zeolite, a natural mineral, is a potent detoxifier, safe for everyone including pregnant and nursing women.

NORTH LOGAN, UT, USA, March 27, 2014 /EINPresswire.com/ -- [Zeolite](#) Pure is the highest quality micronized medical grade clinoptilolite zeolite available for absorbing and removing heavy metals, toxins and free radicals from your body while boosting the immune system and balancing the pH in the body without side effects.

Top 5 Zeolite Benefits

1. 100% safe and non-toxic at any level: All traces of the mineral are completely eliminated out of the body within 6-8 hours. It's safe for children, pets, pregnant women and nursing mothers. It is also safe to take with most medications (as long as they are not heavy metal based), but as always you should check with a medical professional first.
2. Removes heavy metals & toxins: Micronized zeolite has the perfect molecular structure for capturing and removing heavy metals from the body without removing the minerals your body needs. Many people report feeling increased energy, clarity and vitality after removing heavy metal build up.
3. Helps balance the body's pH levels to an alkaline state: Whenever micronized zeolite is introduced to the body, it buffers the system toward a slightly alkaline state) pH 7.35 to 7.45), which is an optimum pH level for the human body. Zeolite attracts and then buffers excess protons which cause acidity, and this way can help many conditions from acid reflux to candida to arthritis.
4. May help reduce cancer risk. There is clear evidence that micronized zeolite removes toxins that can cause cancer (75% or more cancers may be toxin-related). This does not mean that zeolite is a cancer treatment, nor should a cancer patient use this alone... but it is a great supplement to integrate into a treatment program.
5. Zeolite is easy to take. Most detoxification products are difficult to take and many must be injected into the blood or administered via an enema. Zeolite works at the cellular level, has no taste or odor, and it can be taken on an empty stomach.

About Purify Your Body, LLC:

<http://www.purifyyourbody.com>
