

IT Governance Launches Live Online Training for Transitioning to ISO27001:2013 in USA

IT Governance has launched the ISO27001 2013 Certified ISMS Transition Training Course in USA.

BOISE, IDAHO, USA, April 3, 2014 /EINPresswire.com/ -- IT Governance, global leader in information security and ISO 27001-compliance solutions, has launched the [ISO27001 2013 Certified ISMS Transition Training Course](#) in USA. The course is delivered in a live and online format and is scheduled at a time to suit delegates from across North America to attend from the comfort of their home or office.

Led by Alan Calder, world-recognized information and cyber security guru and Founder and Executive Chairman of IT Governance Ltd, this one-day training course delivers an essential ISO27001:2013 knowledge update and practical advice for information security management system (ISMS) implementers and auditors.

Delegates who book their place through IT Governance will be able to log in via Webex and experience Alan's teaching live online with the accompaniment of slides. This format has been highly successful for small and medium businesses throughout North America who want to experience training from IT Governance but are unable to attend one of the company's leading UK classroom-based courses.

With the next training date occurring on April 10th 2014, this course will be perfect for information security managers, ISO27001 implementers and auditors who wish to implement and maintain ISO27001 in compliance with the new 2013 version of the standard.

The [ISO/IEC ISO27001:2013](#) standard was published in October 2013 and replaces ISO27001:2005 as the pre-eminent international standard for defining an effective information security management system (ISMS). Corporations are expected to make the transition by October 2015. This transition course will provide you with the knowledge and guidance to confidently make the change.

To find out more and book your place on the next course, visit the IT Governance website:
