

Lighting Experts from HDHTECH.COM Creating Interior Environment Inside Greenwich Village's Hottest Condo Conversion

HDH Intelligent Technologies is outfitting the condos, at 215 Sullivan, with full-automation control, lighting, and intercom systems.

NEW YORK, NY, UNITED STATES, April 2, 2014 /EINPresswire.com/ -- According to Hy Haddad, president and founder of HDH Intelligent Technologies (<http://www.hdhtech.com>), a provider and custom installer of home electronic and integration systems based in Brooklyn, New York, the company's most recent project involves the long-awaited and much talked about condo project at 215 Sullivan, in Greenwich Village.

"We are pleased to have the opportunity to work on this exciting project," says Haddad, whose company is installing [automation control](#), as well as lighting and intercom systems inside the much-anticipated condo units. "The condos at 215 Sullivan have become one of the most talked about new developments in New York City."

The site, which is the former home of the Children's Aid Society, and the 65,000-square-foot condo project features 25 residential units spread over seven stories. According to Haddad, each of the units is being outfitted, by his company, with automation systems from Vantage Controls.

"Vantage Controls is one of the leading manufacturers of [lighting control](#) and home automation products," Haddad explains. "Vantage systems offer the perfect combination of aesthetic design and state of the art functionality, offering the ultimate in interior environment control."

Each condo unit, according to Haddad, will feature custom-installed [automated lighting systems](#), as

well as one of the most advanced, state-of-the-art intercom systems on the market today, from Siedle.

“Like HDH, Siedle has had just one mission since they began nearly seventy years ago, and that has been to continue to improve the products that they offer,” says Haddad. “They are truly experts in the field, just as HDH Technology has the expertise to install electronic and integration systems like no one else.”

HDH Intelligent Technologies, based in Brooklyn, NY, is a provider and custom installer of home electronic and integration technologies. HDH serves both commercial and residential customers by providing lighting control systems, security & CCTV, audio/video, telephone systems, home theaters, and HVAC control & automation. Serving the entire tri-state area, no job is too big or too small for the HDH staff, from hanging a plasma display on a wall, to installing a full automation and control system.
